

# **Bologna Information Package for MA in Political Science International Relations**

## **1. Program Information**

**1.1. Aim:** Yeditepe University is part of a world-class city centrally located in a geographically strategic region with easy access to Europe, the Middle East and Asia. The M.A. Program in Political Science and International Relations aims to recruit students from the neighboring regions in addition to Turkish nationals and educate them in the fields of domestic and international politics with skills and abilities to be employed by either public or private sector at home or abroad since 2004. Only one third of the applicants at the master's level have been accepted to the programs, as a measure to increase the quality of the graduate studies.

**1.2. Targets:** The curriculum not only embraces an interdisciplinary approach but also allows room for specialization through elective courses with a focus on Middle Eastern studies. The courses are designed beyond the classic lecture format so that students can actively participate in classes through presentations, discussions, projects and so forth. Besides, the curriculum is being reshaped in accordance with the responses we hear from the advisory board of the department, which was established as part of Bologna process and includes some prominent members of public and private sector in Turkey. The board has already begun to play a role of mediator between the department and the general public.

## **2. Program Learning Outcomes**

### **Theoretical, Factual**

**PO1.** To demonstrate the ability to specialize and expand knowledge in the fields of political science, international relations, comparative politics, Turkish politics and foreign policy.

**PO2.** The ability to comprehend the interdisciplinary quality of the political science and international relations discipline.

### **Cognitive-Practical**

**PO3.** A command of basic research models and approaches of political science and international relations discipline and the ability to apply them in academic research and project design.

**PO4.** Having the ability to assess and interpret the different political and societal systems in the Middle East with an interdisciplinary approach.

**PO5.** Having a command of qualitative and quantitative data collection and analysis methods and abiding by the highest levels of academic and research ethics.

### **Proficiency in Independent Study and Taking Responsibility**

**PO6.** The ability to present and debate an issue that requires specialization in the field of political science and international relations. The ability to discuss this issue within an intellectual framework, and the ability to express oneself in a professional and academic manner.

### **Proficiency in Learning**

**PO7.** The ability to analyze and critically evaluate basic research models, approaches and intellectual traditions in the field of political science, international relations

### **Proficiency in Communication and Social Skills**

**PO8.** The ability to utilize academic writing and presentation skills to projects, dissertations and articles.

**PO9.** Having advanced reading, writing, comprehension and speaking skills in the English language.

**PO10.** Having the ability to apply knowledge of political science and international relations discipline to information technologies and traditional tools so as to produce sound solutions to problems.

### **Area Specific Proficiencies**

**PO11.** Possessing experience and social skills necessary for employment in the public and private sectors and/or being admitted to a competitive Ph.D. program.

**PO12.** Having empathy towards diverse and differing communities, which will facilitate conducting teamwork at local as well as global platforms.

**PO13.** Having competency of comprehending and interpreting local and global issues through information exchange with international academics and students.

### **3. Degree Awarded**

Upon successful completion of coursework (72 ECTS) and research (60 ECTS) in order to write and defend a thesis, graduates of this program are awarded with a master's degree in political science and international relations. Students, who choose not to work on a thesis, are required to take additional three electives rather than the seminar and will be expected to write a graduation project to be awarded with a master's degree without a dissertation.

### **4. Admission**

The Master's Program in Political Science and International Relations is open to all candidates holding a B.A. from a Turkish or an international university, as approved by the Turkish Higher Education Board (YÖK). Prospective students are required to take the ALES (Graduate Education Test), a general requirement of YÖK, and achieve a minimum score of 55 EA (quantitative and verbal joint section). Candidates must also pass an oral examination given by the faculty members.

In our institution, the medium of education is English and candidates must have taken the TOEFL with a minimum score of 213 in the computer-based system or 79 in the internet-based system. Those students whose English is not sufficient for graduate studies may join the master's program upon successful completion of an English language program.

### **5. Employment Opportunities**

Graduates of our department have been accepted to doctoral programs not only in Turkey but also in some most reputable universities in Europe and the US. The graduates who preferred not to pursue an academic career have found prestigious positions both in private and public sector (such as in the media, finance, Foreign Affairs, Foreign Trade).

### **6. Graduation Requirements**

To complete the program, students are required to take a total of 132 ECTS. After successful completion of the required course work, students will be expected to conduct research and write an MA thesis based on their findings. Students generally finish their course work in the first year and their research in the second year. Students, who choose not to work on a thesis, are required to take additional three electives rather than the seminar and will be expected to write a graduation project (60 ECTS) to be awarded with a master's degree without a dissertation.
